Description

Big Ben, named for the one of the most iconic landmarks massive bells inside the clock tower, is the Sunterra Outdoor, and BBQ Pit Boy prized BBQ Smoker provides up to 2,097 square inches of cooking capacity.

In the horizontal Main Chamber - there is over 780 SQ. in. of cooking surface. A direct grilling surface in the Firebox of over 375 SQ. in. and the Vertical Smoker cooking chamber makes use of over 942 SQ. in of pure "Smoke". If you choose to use the Vertical Smoker to hang your favorite slow-cooked meats, we'll include a smoking bar...

This well-built smoker loaded with features like fully welded 3/16" gauge steel construction, 1200°F high-heat liquid paint with UV protection and durable steel shelves superbly crafted. Many of our features included are options with other companies, such as the warming plate, heavy-duty grates both cooking and charcoal, and probe port. Plus, there are many more features shared with an efficient air flow management system. For the largest of gatherings, the Sunterra Outdoor wood and charcoal burning smoker, Big Ben will give Trophy status results with little effort whether you are a new or seasoned grill master.
